

Redmine - Defect #12332

Repository identifier does not display on Project/Settings/Repositories

2012-11-09 05:53 - Greg Hewgill

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:	2.1.4	Affected version:	
Resolution:	Fixed		
<b>Description</b> On the project settings page, Repository tab, the "Identifier" column is always blank. This appears to be due to the use of "repository.identifier_param" in app/views/projects/settings/_repositories.html.erb.  Changing both instances of "identifier_param" to "identifier" appears to fix this problem.			

Associated revisions

Revision 10837 - 2012-11-18 11:10 - Jean-Philippe Lang

Fixed that repository identifier may not be displayed in project settings (#12332).

Revision 10870 - 2012-11-23 23:25 - Jean-Philippe Lang

Merged r10837 from trunk (#12332).
