Redmine - Feature #1236

Make destination folder for attachment uploads configurable

2008-05-14 15:44 - Laradji nacer

Status:	Closed		**Start date:**	2008-05-14
Priority:	Normal		**Due date:**

Category:	Attachments		**Estimated time:**	0.00 hour
Target version:	1.2.0			
Resolution:	Fixed			

Description

By default the attachments are in the files folder under the redmine app.

It will be great if we can set a folder outside the redmine folder.

Because when you make a new .war of redmine for running a re-deploy on a jruby app server it will override the files folder and you will lose all your files.

Associated revisions

Revision 4755 - 2011-01-23 11:41 - Jean-Philippe Lang

Makes the folder for attachments storage configurable in config/configuration.yml (#1236).

History

#1 - 2008-05-15 15:53 - Carl Nygard

- File redmine-attachment-storage-path-0.7.0.patch added

Just realized I never submitted this feature request, even though I had a patch ready to go. This worked in 0.6.4, and should work in 0.7.0. However, please test carefully.

#2 - 2008-05-15 16:34 - Laradji nacer

It is possible to add this patch to the 7.2 branch ?

#3 - 2009-12-28 18:51 - Mischa The Evil

- Subject changed from Can configure where to store the download document to Make destination folder for attachment uploads configurable

#4 - 2011-01-23 13:24 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 1.2.0

- Resolution set to Fixed

r4755 makes this folder configurable in the application configuration file (see #7408).
