- Status changed from New to Closed

- Resolution set to Cant reproduce

Issue#notes is defined in 2.1. Make sure that you don't have local changes, that you have properly updated your code base and restarted your application.

I have the same error and we have an empty plugins folder, running redmine 2.1.4 from https://github.com/edavis10/redmine/commits/2.1-stable (
r18075]
Jean Lacoste Can you please point out the file (line) where we shall compare/search for a diff.
tx a lot.

Ok, i found the cause.

The idl github repo i used is corrupt/out of date. There are differences between
https://github.com/redmine/redmine and https://github.com/edavis10/redmine.git (i used)

Shall have read the download instrcution first, but my connection is from old (pre chili) days. Missed that. Sorry.
