I add new issue, fill the nesessary fields. Then I try to add files to the issue. I select "file1" and add decription for it "desc1", press 'add another file' and add "file2" with description "desc2". Then I save the issue.
When the issue is saved, there are 2 files attached: file1 with description "desc2" and file2 with no description.

You're right. inline attach screenshot 0.3.5 was the cause.
