Category:	PDF export	**Estimated time:**	0.00 hour
Target version:			
Resolution:	No feedback	**Affected version:**	2.0.0

Description

I can't find any solution for my problem.
I got an Internal error when I try to export issues to pdf and on my production.log there is nothing.

Environment:
Redmine version   2.0.0.stable
Ruby version   1.8.7 (i686-linux)
Rails version   3.2.3
Environment   production
Database adapter   MySQL

Could you give some more informations? Does the export of a new single issue succeed? Or this problem only occurs by exporting the issues overview?
May it's the bug descibed in [#13354](#) ?

Try this: Create a new issue and fill out only necessary field. Type ONLY latin letters. Test the issue export. Also export the issue list (from issue overview page) but set the filter like this that only the new created issue is display in the list.
