

Redmine - Defect #12506

Wiki links incomplete in generated mail

2012-12-05 09:08 - Eric Boudaillier

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:		Affected version:	2.1.4
Resolution:			
Description			
<p>There is a problem with links and how they are sent by email (for news notification for example). In fact, when specifying links with a title without using full URL, e.g. "See plugins": "See plugins"/:plugins the mailer don't add site root URL, so URL is not usable in mail.</p>
