Redmine - Defect #12506

Wiki links incomplete in generated mail

2012-12-05 09:08 - Eric Boudaillier

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	2.1.4

Description

There is a problem with links and how they are sent by email (for news notification for example).
In fact, when specifying links with a title without using full URL, e.g. "See plugins":

"See plugins":/plugins

the mailer don't add site root URL, so URL is not usable in mail.
