

Redmine - Defect #1257

Validation error: input data for files are not preserved

2008-05-19 12:53 - Andreas Deininger

Status:	Closed	Start date:	2008-05-19
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Wont fix		
Description How to reproduce: Create a new issue, leave subject blank. Add one or more files to the issue, optionally with description for the file(s). After pressing the "Create" button, an error message is shown: <code>« Subject » can't be blank.</code> During the validation, the input data for the file(s) were discarded, so you have to enter the file information again. Were nice if that info could be preserved.

History

#1 - 2008-05-24 19:58 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Wont fix

AFAIK, it can not be preserved.
