

Redmine - Feature #12588

Text Formatting should be able to be applied beyond a paragraph

Description Right now you must apply text formatting to each paragraph. For Example ex: <i>Test. Test. Test. Test. Test. Test.</i> <i>Test. Test. Test. Test. Test. Test.</i> It would be nice to be able to do the following: _Test. Test. Test. Test. Test. Test. Test. Test. Test. Test. Test. Test._ I realize that this may not be possible as may require serious changes to your lexical analyzer but it would be convenient on long posts.
