

Redmine - Defect #12616

Macros in sidebar do not show correct information.

2012-12-17 16:04 - Miodrag Milic

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Wiki	Estimated time: 0.00 hour
Target version:	Affected version: 2.1.2
Resolution:	
Description	
<p>If, in the sidebar I have for instance:</p> <pre> {{lastupdated_at}}: {{lastupdated_by}} <-- wiki extensions plugin {{child_pages}} <-- redmine</pre> <p>then sidebar lists macro results on itself (when the sidebar is updated, its own child pages) instead of wiki page that hosts it.</p> <p>This prevents modularised approach to project documentation.</p>
