

## Redmine - Feature #12658

### Assigning Responsible and Reporter

2012-12-20 16:25 - Safwen Marzougui

<b>Status:</b> New	<b>Start date:</b>
<b>Priority:</b> High	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Issues permissions	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
<p>Remdmine is missing the feature for assignin the Reporter of the Bug (comparing to JIRA for example) at the creation of the issue or later.</p> <p>This will be extreamly important to allow, at the creation of the Bug or later, to assign 2 persons:</p> <ol style="list-style-type: none"><li>1. The Assignee (responsible)</li><li>2. The reporter that will test.</li></ol> <p>Such as in JIRA for example.</p> <p>Must be some implications for that:</p> <ul style="list-style-type: none"><li>• Reporter will recieve a notification if and only if the status is Resolved.</li><li>• Reporter can then change the status to Closed or Rejected if and only if the status Resolved. otherwise the reporter can't change the status (In progress, New ..)</li><li>• Some fields cannot be changed in the bug by the reporter, so his main role if to test the bug if it is Resolved.</li></ul> <p>Is it possible in redmine? Or is there a plugin for that? did I missed somthing?</p> <p>BR, Big thanks for all your efforts! Safwen</p>
