Redmine - Defect #12663

Deleting an re-adding a repository duplicates all spent time from commit messages.

2012-12-21 12:25 - Ryan J

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Time tracking		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	2.0.3

Description

I have a project where I deleted an re-added the Git repository (to move it on disk). When I re-added the repository, the time spent logged using (ex:) @1h30m tags in commit messages was duplicated. I think [this person](#) may have been having a similar issue.

History

#1 - 2012-12-21 19:18 - Jean-Philippe Lang

Yes, commit message are parsed when re-adding the repository and new time entries are created.
As a workaround, you should be able to manually delete all these time entries with something like:

```
delete from time_entries where created_on > [a few minutes ago]
```

#2 - 2012-12-23 00:21 - Toshi MARUYAMA

- Subject changed from Deleting an re-adding a Git repository duplicates all spent time from commit messages. to Deleting an re-adding a repository duplicates all spent time from commit messages.

#3 - 2013-01-25 15:48 - Daniel Dehennin

I think this issue could be linked with #1273 and maybe [#11842](#).

Regards.
