Target version:	2.2.1	Affected version:	
Resolution:	Fixed		
Description			
When I want to look up the details of Textile formatting, I am directed to this page (from Help -> More Information in Redmine): http://www.textism.com/tools/textile/ The Wayback machine (http://wayback.archive.org/web/*/http://www.textism.com/tools/textile/) suggests that the page was deleted in July, 2011. It would be nice if the documentation could either be provided inline, or if the link could be changed to a site that works.
