I could break this down to a call in jquery-1.8.3-ui-1.9.2-ujs-2.0.3.
If I'm right, UJS doesn't support jQuery 1.8.3 just 1.8.2.
But I'm not sure, if this is the real problem.

This seems just to occur in IE. In Firefox everything works.

This issue probably duplicates with [#12650](#) and fixed in Redmine 2.3.1.
