Redmine - Defect #12720

TLS configuration documentation for Rails 3

2013-01-03 14:16 - Rodrigo Macedo

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid	Affected version:	2.2.0
Description		Į	
When installing 2.	2-stable the smtp configuration sett	ings for TLS encryption is somewhat	at broken, as notified by [1].
If a smtp server is	configured with both "tls: true" and	"enable_starttls_auto: true", this er	ror occurs when trying to send mail:
An error occu llo A: unknow	-	SL_connect returned=1 errn	o=0 state=SSLv2/v3 read server he
This type of config	guration is also the suggested meth	od for configuring gmail in the redm	ine documentation [2].
