| Description | | | |
| <p>Hi,</p> <p>I encounter some misbehaviour from redmine, if I export a GANTT to PNG.</p> <p>This cause a overload (ruby process ~94%) on my testsystem. Even with 1 month duration and only 5 tickets. This seems to be a general problem of this export.</p> <p>If I export the same data as PDF, everything is fine.</p> <p>Those bug force me to kill the ruby process, the whole server would otherwise collaps.</p> <p>Best regards, Daniel</p> | | | |

| Is duplicate of Redmine - Defect #12480: Gantt to PNG not working. Thin freez... | | | New |

History

#1 - 2013-01-05 14:49 - Jean-Philippe Lang

Looks very similar to [#12480](#).

#2 - 2013-01-05 21:27 - Daniel Felix

- Status changed from New to Closed

- Resolution set to Duplicate

Hi Jean-Philippe,

yeah this is a duplicate. The same things as described in [#12480](#) happen on my machine too. Thanks for this hint.

Best regards,
Daniel
