Redmine - Feature #12802

Display the commit message on the email notification

2013-01-10 18:44 - Rui Gonçalves

Description

Currently, the email notification regarding an issue contains information like the title, author, etc. However, when the notification is triggered by a commit, it is displayed only the changeset and not the message inserted by the user, which, in my opinion, is a much more relevant information.

I'm using git (1.7.9.5) as SCM and the Redmine version is 1.3.2stable (MySQL).
