Description

I need help, with this line.
I'm new and I need to find the place and will document this line

config.action_controller.session = { :key => "_myapp_session", :secret => "some secret phrase" }

I know it goes in the "environment.rb", but do not know what part of that file

I need urgent help

Please ask your question in forums, this tracker is for Feature requests and Bug reports only.

You should not have to add manually this line, it should be written located in config/initializers/secret_token.rb which is generated by running the rake generate_secret_token task (see RedmineInstall).
