

Redmine - Patch #12910

Plugin settings div should perhaps have 'settings' CSS class

2013-01-19 23:53 - Harry Garrood

<b>Target version:</b>	2.3.0		
<b>Description</b>  The div which contains all the settings for the main Settings page has the CSS classes 'box tabular settings'. The equivalent div on the plugin settings page is only 'box tabular'. The attached patch adds the CSS class 'settings' onto the plugin settings div which makes the UI more consistent and the plugin settings page look a bit better.
