<b>Target version:</b>	2.3.0		
<b>Resolution:</b>			
<b>Description</b> More of a task: <a href="#">source:trunk/doc/INSTALL</a> has been changed with <a href="#">r11203</a> and <a href="#">r11204</a> . These changes should also be applied to the <a href="#">RedmineInstall</a> wiki page upon the time these changesets make it into a new release to make sure the wiki reflects the documentation bundled in the source itself as good as it gets.
