

Redmine - Patch #12937

mail_handler patch

2013-01-21 23:59 - Dinu Marina

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Email receiving	Estimated time: 0.00 hour
Target version:	
Description I submit this rather elementary patch that fixes 2 issues in mail_handler.rb: 1) If Project: tag in email cannot be honored (missing project), rather than failing, the issue is assigned to the default project defined in settings 2) Preserve outlook style email addresses in the form <user@domain>. Previously they were stripped as html tags because the <> brackets. The regexp is rather liberal but I find, well suited for the job. Patch is against Redmine 2.0	
Related issues: Related to Redmine - Feature #16962: Better handle html-only emails Closed Related to Redmine - Defect #14491: MailHandler: Unable to determine target p... Closed

Fixed in [r12067](#) for Redmine 2.6.0.

2) Preserve outlook style email addresses in the form <user@domain>. Previously they were stripped as html tags because the <> brackets. The regexp is rather liberal but I find, well suited for the job.

Fixed by [#16962](#) for Redmine 3.1.0.

#2 - 2019-02-10 05:41 - Go MAEDA

- Related to Feature #16962: Better handle html-only emails added

#3 - 2019-02-10 05:41 - Go MAEDA

- Related to Defect #14491: MailHandler: Unable to determine target project (when allow_override=project and project=unassigned is used) added
