How to add new project in redmine.org ??

History

#1 - 2013-01-22 17:31 - Jan Niggemann (redmine.org team member)

- Status changed from New to Closed

- Resolution set to Invalid

While you can test on demo.redmine.org as well as m.redmine.org, redmine.org is not a service that people can use.

You have to download and install redmine on your own server.
Please see RedmineInstall for a starting point.
