Redmine - Defect #12950

priority dropdown empty on m.redmine.org

2013-01-22 19:47 - David Morrison

Resolution:		**Affected version:**	

Description
I'm trying to set up a demo on m.redmine.org and running into a bit of a roadblock. I've created a project and that seems OK. When I try to create a new issue, one of the mandatory fields is "priority", but the drop down list in the web interface is empty. So I can't indicate a priority and this stops me from creating the new issue. I can't figure out how if I've misconfigured things myself (I don't think so) or if there's some problem with the way the demo server is set up. Are other folks able to create demo projects and then create new issues? Any advice?

- Status changed from New to Closed

- Resolution set to Invalid

Priorities can be defined in Administration -> Enumerations. Please no help request in the issue tracker, thanks.

Reopening this one, there's another mention of the same problem:
RE: priority field in redmine demo

I can't check that since for some reason I can't login to the freshly registered aqswde.m.redmine.org...

I've checked this on mte.m.redmine.org and couldn't find any abnormalities. Like J-PL suggested, priorities can be defined in Administration -> Enumerations.

I just had the same prob. with a freshly registered mtenew.m.redmine.org, using IE8. Using FF19.0.2 did the trick for me and logged me in successfully.

on_name", "project_id", "type") VALUES (?, ?, ?, ?, ?, ?, ?, ?)
```

In response to the quoted report I have tried to load the default data-set on the freshly registered mtenew.m.redmine.org. I got the same error. Seems there is something wrong indeed.

I've received the same error

#6 - 2024-11-10 08:31 - Go MAEDA

- Status changed from Reopened to Closed

m.redmine.org is no longer available.
