| Target version: | | Affected version: | 2.3.2 |
| Resolution: | Duplicate | | |

Description

Hi,

I've encountered some bug, which prevents the creation of a new issue.

Maybe this is solved by committing [#12005](#), but in the current trunk and Redmine 2.2.2 this bug is reproduceable.

Ways to reproduce this error:

- 1. Set custom field as required

Custom fields » Issues » AuswertungsID

Name *

AuswertungsID

Format

Text

Min - Max length

0 - 0

(0 means no restriction)

Regular expression

(eg. `^[A-Z0-9]+$`)

Default value

Trackers

☒ Fehler

☒ Feature

☐ Unterstützung

☐ Aufgabe

Required

☒

For all projects

☐

Used as a filter

☒

Searchable

☒

- 2. Define field as read-only in workflow

Workflow

Status transitions

Fields permissions

Select a role and a tracker to edit the workflow:

Role: Manager

Tracker: Fehler

Edit

Only display statuses that are used by t

| Neu | |
|-----------------|----------------------|
| Standard fields | |
| Project * | <input type="text"/> |
| Tracker * | <input type="text"/> |
| Subject * | <input type="text"/> |
| Description | <input type="text"/> |
| Priority * | <input type="text"/> |
| Private * | <input type="text"/> |
| Assignee | <input type="text"/> |
| Category | <input type="text"/> |
| Target version | <input type="text"/> |
| Parent task | <input type="text"/> |
| Start date | <input type="text"/> |
| Due date | <input type="text"/> |
| Estimated time | <input type="text"/> |
| % Done | <input type="text"/> |
| Custom fields | |
| AuswertungsID * | Read-only |

3. Try to add issue, as you could see the field isn't displayed in the form but is checked in the required process

New issue

AuswertungsID can't be blank

Tracker: Fehler

Files:

Maybe this one is related with [#12856](#), which hasn't any relation to custom fields, but the result seems to be the same.

Some suggestion to solve this:

Commit patch from [#12005](#), remove required checkbox from custom fields, set currently required fields to "required" in all workflows. This way there is no way to set a field as read-only and required.

Best regards,
Daniel

Needs feedback

Is duplicate of Redmine - Defect #19193: Custom Field definition inconsistency

New

History

#1 - 2013-01-23 10:37 - Daniel Felix

- Description updated

#2 - 2013-01-23 10:39 - Daniel Felix

- Description updated

#3 - 2013-08-08 17:11 - Daniel Felix

- Affected version (unused) changed from 2.2.2 to 2.3.2
- Affected version changed from 2.2.2 to 2.3.2

I can reproduce this, even with the current release or with 2.3.2-devel ([r12012](#)).

It would be good to prevent setting a field to "hidden", if it is a required field. Or on the other hand, the field should be only required if it is visible to the user.

#4 - 2017-02-19 04:52 - Go MAEDA

- Is duplicate of Defect #19193: Custom Field definition inconsistency added

#5 - 2017-02-19 04:53 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Duplicate

Fixed by [#19193](#) (Redmine 3.1.0).
