

Redmine - Defect #12954

Required field can't be read-only

2013-01-23 10:32 - Daniel Felix

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues workflow	Estimated time: 0.00 hour
Target version:	Affected version: 2.3.2
Resolution: Duplicate	

Description

Hi,

I've encountered some bug, which prevents the creation of a new issue.

Maybe this is solved by committing #12005, but in the current trunk and Redmine 2.2.2 this bug is reproduceable.

Ways to reproduce this error:

1. Set custom field as required
custom_field_required.png
2. Define field as read-only in workflow
workflow_read_only.png
3. Try to add issue, as you could see the field isn't displayed in the form but is checked in the required process
failure_in_issues.png

Maybe this one is related with #12856, which hasn't any relation to custom fields, but the result seems to be the same.

Some suggestion to solve this:
Commit patch from #12005, remove required checkbox from custom fields, set currently required fields to "required" in all workflows.
This way there is no way to set a field as read-only and required.

Best regards,
Daniel

History

#1 - 2013-01-23 10:37 - Daniel Felix

- Description updated

#2 - 2013-01-23 10:39 - Daniel Felix

- Description updated

#3 - 2013-08-08 17:11 - Daniel Felix

- Affected version (unused) changed from 2.2.2 to 2.3.2

- Affected version changed from 2.2.2 to 2.3.2

I can reproduce this, even with the current release or with 2.3.2-devel (r12012).

It would be good to prevent setting a field to "hidden", if it is a required field. Or on the other hand, the field should be only required if it is visible to the user.

#4 - 2017-02-19 04:52 - Go MAEDA

- *Duplicates Defect #19193: Custom Field definition inconsistency added*

#5 - 2017-02-19 04:53 - Go MAEDA

- *Status changed from New to Closed*

- *Resolution set to Duplicate*

Fixed by #19193 (Redmine 3.1.0).
