

Redmine - Defect #12971

Redmine zip archives on RubyForge are corrupted since version 2.1.4

Description

Zip archives downloaded from http://rubyforge.org/frs/?group_id=1850 are corrupted since redmine version 2.1.4. For instance SVG/Graph/Graph.rb file has systematically an extra line break for each line.

Starting webrick fails with following error:

```
Exiting
SyntaxError: C:/usr/redmine/redmine-2.1.4/lib/SVG/Graph/Graph.rb:979: can't find
string "EOL" anywhere before EOF
      require at org/jruby/RubyKernel.java:1027
      require at C:/jruby-1.7.2/lib/ruby/gems/shared/gems/activesupport-3
.2.8/lib/active_support/dependencies.rb:251
      load_dependency at C:/jruby-1.7.2/lib/ruby/gems/shared/gems/activesupport-3
.2.8/lib/active_support/dependencies.rb:236
      require at C:/jruby-1.7.2/lib/ruby/gems/shared/gems/activesupport-3
.2.8/lib/active_support/dependencies.rb:251
.....
```

I have systematically downloaded each redmine 2.x archive and found that the problem started since version 2.1.4 (this also proves that the problem is not due to my firewall).

Workaround: sources from redmine git repository are OK.

Associated revisions

Revision 11269 - 2013-01-26 10:46 - Jean-Philippe Lang

Set proper EOL on SVG source files (#12971).

Revision 11357 - 2013-02-12 04:52 - Toshi MARUYAMA

2.2-stable: svn propset svn:eol-style native SVG source files (#12971)

History

I can't confirm this:

Version	OS	tool	result
2.2.2.	Win 7 Pro	7-Zip 9.20	no errors
2.2.1	Win 7 Pro	7-Zip 9.20	no errors
2.2.2	Debian stable	UnZip 6.00	no errors
2.2.1	Debian stable	UnZip 6.00	no errors
2.1.5	Debian stable	UnZip 6.00	no errors

#2 - 2013-01-25 10:51 - Etienne Massip

- Category set to Website (redmine.org)
- Status changed from New to Confirmed
- Target version set to Candidate for next minor release

I can.

Althouh the Zip files integrity is Ok, EOL sequences in Graph.rb have been converted from CRLF to CRCRLF.

Usually Redmine repository files EOL sequence is Unix LF and this file is an exception.

#3 - 2013-01-25 14:09 - Jan Niggemann (redmine.org team member)

Zip archives downloaded from http://rubyforge.org/frs/?group_id=1850 are corrupted

Serves me well for only reading the first paragraph...

#4 - 2013-02-13 00:06 - Toshi MARUYAMA

- *Status changed from Confirmed to Needs feedback*

Please check [2.2.3](#) zip.

#5 - 2013-02-13 00:07 - Toshi MARUYAMA

- *Target version deleted (Candidate for next minor release)*

#6 - 2013-02-13 09:47 - Vincent Mathon

The SVG/Graph/Graph.rb file is correct and I have deployed the 2.2.3 zip archive successfully with webrick.
For me the issue is solved, thank you.

#7 - 2013-02-13 09:51 - Toshi MARUYAMA

- *Status changed from Needs feedback to Closed*

Thank you for your feedback.
