<b>Description</b> there's a request for Redmine Java API submitted a while ago: <a href="https://github.com/taskadapter/redmine-java-api/issues/1">https://github.com/taskadapter/redmine-java-api/issues/1</a> - update Issue Watchers.  I can't add that functionality to the Java library because Redmine's REST API does not support this.			
<b>Related issues:</b> Is duplicate of Redmine - Feature #6727: Add/remove issue watchers via REST API <b>Closed</b> <b>2010-10-22</b>
