

Redmine - Feature #13031

do not restrict tickets view to max. 100 tickers per page

2013-01-30 09:05 - Anonymous

Target version:			
Resolution:	Invalid		

Description

It seems as if 100 is the maximum amount of tickets that can be viewed per page in the tickets view.
Could you add the possibility to view more than 100 tickets per page?
Maybe you can add an "all" link, too?

History

#1 - 2013-01-30 10:18 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Invalid

There's a Objects per page options setting in Administration/Settings General tab.

Objects per page options

25

Multiple values allowed (comma separated).

Edit: sorry I understood you were still not finding it.

I found it after your hint - I just wanted to say thank you to you. Now it's clear, thanks again!
