

Redmine - Defect #13044

Rake error using JRuby 1.7.2 and Redmine trunk

2013-01-31 13:39 - Tobias Hofmann

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Target version:		Affected version:	
Resolution:	Wont fix		
Description			
<p>It's not possible to use JRuby 1.7.2 with current trunk of redmine (2.3?) because of a rake error message.</p> <p>I'm able to reproduce the error by downloading a vanilla JRuby 1.7.2 + redmine trunk (from GitHub), execute a bundle install and then rake generate_secret_token (or a warble config for WAR creation). This gives:</p> <p>ArgumentError: regexp preprocess failed: too short control escape Backtrace at C:/[...]\jruby\lib\ruby\gems\shared\gems\rake-10.0.3\lib\rake\backtrace.rb:10 Rake at C:/[...]\jruby\lib\ruby\gems\shared\gems\rake-10.0.3\lib\rake\backtrace.rb:2 (root) at C:/[...]\jruby\lib\ruby\gems\shared\gems\rake-10.0.3\lib\rake\backtrace.rb:1 [...]</p> <p>The backtrace.rb file contains the line: SUPPRESS_PATTERN = %r!(\A#{SUPPRESSED_PATHS.join(' ')} bin/rake:\d+)\!</p> <p>Deleting this line and rake or warble isn't throwing the error.</p> <p>I also had this error with JRuby 1.6 and redmine >= 2.2.0. I'm using Windows 7 64bit. List of installed gems attached.</p>

History

#1 - 2013-01-31 20:32 - Jean-Philippe Lang

I'm able to reproduce on Win32 and JRuby1.7.2 but Redmine is not involved here, it's a JRuby/rake issue under Windows (backslashes in paths seem to be the culprit).

#2 - 2013-01-31 20:40 - Jean-Philippe Lang

With mri1.9.3:

```
irb(main):001:0> RbConfig::CONFIG["prefix"]  
=> "C:/ruby"
```

With Jruby1.7.2:

```
irb(main):001:0> RbConfig::CONFIG["prefix"]  
=> "c:\\ruby"
```

And rake doesn't like it, such a shame.

#3 - 2018-10-09 14:59 - Marius BĂLTEANU

- Status changed from New to Closed
- Resolution set to Wont fix

Jruby is no longer supported starting with Redmine 3.0.0.
