

Redmine - Defect #13079

Difficult to Filter for Issues Starting From Today

2013-02-05 02:33 - Anonymous

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	2.2.2
Resolution:	No feedback		
Description			
<p>Basically, I'd like to get my "to do list," meaning everything that has a start date of today or before (because I want to exclude things that are specifically planned for the future). I just upgraded to 2.2.2 from some old 1.x version (sorry I don't remember which one), and in the previous version, I did this by filtering for "Start Date is more than -1 days ago" (because more than 0 days ago excludes things whose start date is today). In the new version, -1 is an invalid number of days. Maybe there's a better way to do this that I can't see, but I don't see another option to get me what I want.</p> <p>While I understand that -1 days doesn't make a lot of sense, I think that leaving it possible to write queries that use it does help certain use cases, and if someone is using "-1 days," they probably understand that they're doing something weird.</p> <p>I've also used it to show "things whose start date is before today or within the next week" by using "Start Date is more than -7 days ago."</p>			

History

- #1 - 2013-04-11 04:13 - Filou Centrinov**
Just set "more than days ago" to 0 and you get all issue from today and before. (Redmine 2.3)
- #2 - 2013-04-11 13:56 - Toshi MARUYAMA**
- File filter.png added
- You can use ">=" filter.
