History

We're in a Windows env, with MySQL and Apache (Bitnami Redmine Stack) 1.4.

Thanks,

- Status changed from New to Closed

- Resolution set to Invalid

This is an incompatibility with Mongrel fix (mongrel_cluster_with_rails_211_fix.rb) which is not part of Redmine release, so please post your question in forum.

Hello,

I found the problem : it was caused by spend_time_required plugin :

https://github.com/TeamRocketScience/redmine_spent_time_required/issues/2

Thanks for all,
