

Redmine - Defect #13104

Wrong year in redmine footer: move redmine into 2013

2013-02-07 17:45 - Anonymous

Status:	Closed	Start date:	
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	2.2.2
Resolution:	Fixed		
Description			
The footer still seems to have the old date (2012) included, maybe this should be updated for the new releases to 2013 :-)

History

#1 - 2013-02-07 17:50 - Etienne Massip

- Category changed from Themes to UI
- Status changed from New to Closed
- Resolution set to Fixed

It's already updated in trunk: <source:/trunk/app/views/layouts/base.html.erb@11169#L73>.

Guess it could be in 2.2 branch too.

#2 - 2013-02-13 16:47 - Anonymous

Guess it could be in 2.2 branch too.

I updated to 2.2.3 today and still 2012 is shown. This is not a critical bug but this might show that redmine is up to date ;-)

#3 - 2013-02-13 17:04 - Daniel Felix

Any plugins which override this?

On my machine is 2013 as current year. I'm using current trunk.

#4 - 2013-02-13 17:21 - Anonymous

- File *redmine_screenshot.JPG* added

No, I haven't installed any plugins, see attached image (no plugins, wrong year in footer)

#5 - 2013-02-16 00:46 - Mischa The Evil

Florian, Daniel,

This has only been applied on current <source:/trunk> (with [r11169](#) for [#12788](#)) which will evolve in a 2.3.x release-branch soon.

This hasn't been merged into the <source:/branches/2.2-stable> (2.2.x) release-branch which Etienne suggested already in note-1, thus it has not been changed in Redmine [2.2.3](#).
