

Redmine - Defect #132

command line arguments for SVN are not escaped

2007-10-16 10:25 - Redmine User

| | | | |
|---|--------|--------------------------|-----------|
| Status: | Closed | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | |
| Resolution: | | | |
| Description | | | |
| If your username or password for the subversion repository contains (for example) a "\$" you can not log in to the repository 'cause the command line evaluates this as a shell variable. | | | |
| If your password is "12\$34" you have to enter "12\\\$34" into the password field. | | | |

History

#1 - 2007-10-19 14:01 - Jean-Philippe Lang

Fixed in [r852](#).
Can you confirm it's ok now ?

Thanks
