Target version:			
Description			
This is the german translation for r11404 , regarding issue #824 .			
I have to proposals for this.			
First:			
field_closed_on: Geschlossen am			
Which means closed on (but this doesn't seem to be translated like this in english)			
Otherwise, if you want it to hold it like in the en.yml, use:			
field_closed_on: Geschlossen			
I would prever the first one.
