Description

This is a feature request to roll the features of Better Gantt Chart into Redmine's core Gantt Chart implementation. The Better Gantt Chart module is at:

https://github.com/kulesa/redmine_better_gantt_chart/tree/redmine_2.0

Currently 2.0 tree seems unstable (it flat out breaks my Redmine 2.2.3). Works on 1.4 and is a commonly recommended plug-in--even the official book, Mastering Redmine, recommends the Better Gantt Chart plug-in.

Based on this, it may make sense to implement the enhanced features provided by the Better Gantt Chart plug-in directly into Redmine core.

History

+1, watching

#2 - 2013-02-18 23:33 - Toshi MARUYAMA

- *Status changed from New to Closed*

There are #7335 and #3436.
I don't know other features of better_gantt_chart.
Please create new issues for specific features.
