Redmine - Patch #13221

German translation label_total

2013-02-20 00:07 - Filou Centrinov

Description

I propose the german translation "label_total: Gesamtzeit". It's used in the time report.

```
-label_total: Gesamtzahl
+label_total: Gesamtzeit
```

"Gesamtzahl" can only be used for integer values.

No, this would be wrong!

The Reports also display some kind of values which doesn't relate to time!

To change this, the labels have to be splitted in label_total_time and label_total_count to provide a better translation.

#2 - 2013-02-20 12:12 - Filou Centrinov

You are right. Let's split the label.
