Just a simple fix. Replace this in application.css:

```
table.members td.group { padding-left: 20px; background: url(..images/group.png) no-repeat 0% 50%; }
```

with:

```
table.members td.group { padding-left: 20px; background: url(..images/group.png) no-repeat 0% 0%; }
```

or better:

```
table.members td.group { padding-left: 20px; background: url(..images/group.png) no-repeat; }
```
