

Redmine - Feature #13241

Improve editing of spent time in time entries view

2013-02-20 23:37 - Filou Centrinov

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Time tracking	Estimated time: 0.00 hour
Target version:	
Resolution:	
Description 1.) It's a risk having the possibility to change to a bulk of spent time the issue. (= to assign a bulk of spent time to a new issue.) A warning or grant settings would be nice. 2.) When editing only a single spent time, the fields should be filled. When 11 is the id of the issue, the pages /issues/11/time_entries/new and /time_entries/bulk_edit?ids[]=11 should look more similar (e.g. order of fields). Inclusive the issue suggestions when typing an issue name. 3.) When editing time spent the issue id and issue description is not shown. Only the amount of spent time, project and date is shown.

History

#1 - 2013-02-20 23:56 - Jean-Philippe Lang

- Tracker changed from Patch to Feature

#2 - 2013-02-21 00:01 - Filou Centrinov

- File *bulk_edit_time_entry.png* added

- File *save_time_entry.png* added

4.) For me it seems to be better (more logical) to have activity selection first and the comment field beneath.

#3 - 2013-02-26 10:55 - Toshi MARUYAMA

- Description updated

@Jean-Philippe Lang: Could you delete the phrase "May splitting this issue into "editing time spent" and "after confirmation of changes" ? Thank you.

Done.
