

Redmine - Defect #13287

Non-member role with 'created by or assigned' issue visibility can't view own issues in private project

2013-02-26 05:42 - Daniel Black

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues permissions	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>	Invalid		
<b>Description</b>			
<p>About your application's environment</p> <p>Ruby version 1.9.3 (x86_64-linux)</p> <p>RubyGems version 1.8.25</p> <p>Rack version 1.4</p> <p>Rails version 3.2.12</p> <p>Active Record version 3.2.12</p> <p>Action Pack version 3.2.12</p> <p>Active Resource version 3.2.12</p> <p>Action Mailer version 3.2.12</p> <p>Active Support version 3.2.12</p> <p>Middleware Rack::Cache, ActionDispatch::Static, Rack::Lock, #&lt;ActiveSupport::Cache::Strategy::LocalCache::Middleware:0x000000027f4778&gt;, Rack::Runtime, Rack::MethodOverride, ActionDispatch::RequestId, Rails::Rack::Logger, ActionDispatch::ShowExceptions, ActionDispatch::DebugExceptions, ActionDispatch::RemoteIp, ActionDispatch::Callbacks, ActiveRecord::ConnectionAdapters::ConnectionManagement, ActiveRecord::QueryCache, ActionDispatch::Cookies, ActionDispatch::Session::CookieStore, ActionDispatch::Flash, ActionDispatch::ParamsParser, ActionDispatch::Head, Rack::ConditionalGet, Rack::ETag, ActionDispatch::BestStandardsSupport, OpenIdAuthentication</p> <p>Application root /usr/local/redmine-new/redmine-2.2</p> <p>Environment production</p> <p>Database adapter mysql2</p> <p>Database schema version 20130217094251</p> <p>version: <a href="#">r11458</a></p> <p>I used rdm-mailhandler.rb to create a user automaticly and create an issue on my 'unassigned' project. The created user has no groups or projects.</p> <p>The non-member role has issues visibility of 'issues created by or assigned to the user'. (that was added in <a href="#">#7412</a> / <a href="#">r5416</a> ). The other permissions on the non-member role are: 'View Issues' and 'Add notes'.</p> <p>a) After updating an issue there's no email notification to the user when their email notification is set to:</p> <ul style="list-style-type: none"><li>• watched or involved or</li><li>• only things I'm the owner of (related issues <a href="#">#6069</a> and <a href="#">#8497</a>)</li></ul> <p>When logged in as the new users</p> <p>b) /activity</p> <p>Shows nothing</p> <p>c) /issues</p> <p>shows nothing</p> <p>d) /my/page</p> <p>shows nothing</p> <p>e) /issues/3027</p> <p>Direct access to the issue created by the user - 403 You are not authorized to access this page.</p>			

After creating a NONMEMBER role with the same permissions / issues visibility as the internal non-member role, and assigning the role 'NONMEMBER' on project 'unassigned' for the user, all of the above are visible and notices are sent.

## History

---

### #1 - 2013-03-01 11:50 - Jean-Philippe Lang

- Status changed from New to Needs feedback

Works for me. Is your 'unassigned' project public or private?

### #2 - 2013-03-01 23:31 - Daniel Black

private.

### #3 - 2013-03-02 10:50 - Jean-Philippe Lang

- Subject changed from non-member role issue visibility 'created by or assigned to the user' unable to view own issues / or receive email notification of own issues to Non-member role with 'created by or assigned' issue visibility can't view own issues in private project

- Status changed from Needs feedback to Closed

- Resolution set to Invalid

Thanks but I'll have to close this one. Private projects are never visible to non-members.

### #4 - 2013-03-03 07:56 - Daniel Black

ok. Thanks for your help.

patch [#13340](#) is my work around. Hope this is acceptable.
