<b>Description</b>	
Each project has a "due date" (when working with clients). It would be awesome to permits to add a default "due date" for a project. For each new issue, the "due date" will be filled by default.

This plugin solves your problem, just edit file `/plugins/redmine_default_due_date/lib/redmine_default_due_date.rb`  
line: `context[:issue].due_date ||= Date.today + 30 # Days after creating Issue`
