

Redmine - Feature #1332

User display/editing of custom fields attached to their user profile

2008-05-30 17:27 - Tony Arnold

Status:	Closed	Start date:	2008-05-30
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:	0.9.0		
Resolution:	Fixed		
Description			
It would be great to allow the user to modify custom fields (or to mark certain custom fields as "user controllable") - this would let me set-up additional information about a user such as their iChat/GoogleTalk address, their homepage or potentially an avatar/image.

I've added [Gravatar](#) to support user avatars. You can see it on my Redmine:

- Account page - <https://projects.littlestreamsoftware.com/account/show/1>
- Issue page - <https://projects.littlestreamsoftware.com/issues/show/1450>
- Activity page - <https://projects.littlestreamsoftware.com/projects/activity/redmine-timesheet?from=2008-07-22>

I'll get a patch packaged up soon.

#3 - 2009-01-17 12:15 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.9.0

- Resolution set to Fixed

Done in [r2276](#). User custom fields can now be set as editable.
