

## Redmine - Feature #1332

### User display/editing of custom fields attached to their user profile

<b>Description</b>	
It would be great to allow the user to modify custom fields (or to mark certain custom fields as "user controllable") - this would let me set-up additional information about a user such as their iChat/GoogleTalk address, their homepage or potentially an avatar/image.

I've added [Gravatar](#) to support user avatars. You can see it on my Redmine:

- Account page - <https://projects.littlestreamsoftware.com/account/show/1>
- Issue page - <https://projects.littlestreamsoftware.com/issues/show/1450>
- Activity page - <https://projects.littlestreamsoftware.com/projects/activity/redmine-timesheet?from=2008-07-22>

I'll get a patch packaged up soon.

- Status changed from New to Closed
- Target version set to 0.9.0
- Resolution set to Fixed

Done in r2276. User custom fields can now be set as editable.
