Description
Even with administrator privileges I still get 403 Not authorized when trying to view http://redmine/projecs/PROJECTNAME/wiki/index
Only member can do that. This is incompatible with other modules where administrator is privileged to view/do everything...

History

#1 - 2013-03-04 13:44 - Maciej Liżewski

- Status changed from New to Resolved

Update: I am getting 403 because Wiki module is disabled in this project... but maybe it should be 404 Not found instead of 403?
