Description

Hi,

I have successfully installed redmine 2.3.0.

I am able to configure sendmail, but not SMTP.

I tried SMTP configuration steps.

I am not able to install Action mailer plugin through plugin (ruby script/plugin install git://github.com/collectiveidea/action_mailer_optional_tls.git Error: ruby: No such file or directory -- script/plugin (LoadError))

I need help to configure.

Please help me out
