Target version:	2.3.1		
Resolution:	Fixed	**Affected version:**	

Description

Setting added: jquery.locale

```
diff --git a/config/locales/zh-TW.yml b/config/locales/zh-TW.yml
index 1483201..8293256 100644
--- a/config/locales/zh-TW.yml
+++ b/config/locales/zh-TW.yml
@@ -4,6 +4,8 @@

 "zh-TW":
   direction: ltr
+  jquery:
+    locale: "zh-TW"
   date:
     formats:
       # Use the strftime parameters for formats.
```

History

#1 - 2013-03-25 08:32 - Toshi MARUYAMA

Could you tell me why does it need?

#2 - 2013-03-25 11:05 - Chage Juan

Sorry, my English is poor. (so I'm afraid to write too much)

The language setting of my account is set to "zh-TW".
But the datepicker of jquery ui will show "zh-CN".
(It includes file "i18n/jquery.ui.datepicker-zh-CN.js" not "i18n/jquery.ui.datepicker-zh-TW.js")

After I traced the code. I found there is a setting in "config/locale/zh.yml" which is:

```
jquery:
  locale: "zh-CN"
```

So I added similar settings to "config/locale/zh-TW.yml".
And that works.

I don't know if this is right way to fix my problem. Is it?
