History

#1 - 2013-03-27 14:31 - Jérôme BATAILLE

- File RM_13612_members_roles_-_display_group_of_role_RM_V1.2.1.diff added

This patch was done on an old Redmine V1.2.1.

#2 - 2013-03-27 17:56 - Jérôme BATAILLE

- File group_roles.png added

Example :
#3 - 2013-04-10 23:13 - Jan Niggemann (redmine.org team member)

- Target version set to Candidate for next minor release

#4 - 2014-11-05 10:16 - Jérôme BATAILLE

Hi, this patch is simple to validate, is there is a chance that it could be integrated to V3.0.0 ?

#5 - 2014-11-05 11:45 - Jérôme BATAILLE

- File RM_13612_members_roles_-_display_group_of_role_RM_V1.2.1.diff added

Here is a patch against a more recent version of Redmine

#6 - 2014-11-05 15:56 - Jean-Philippe Lang

Can you explain what a group of role is ? That would help to understand the purpose of the patch.

#7 - 2014-11-05 16:16 - Jérôme BATAILLE

- File RM_13612_members_roles_-_display_group_of_role_RM_V1.2.1.diff added

Hi Jean-Philippe,

I mean Group of the role, if the user is member of the project through a Group.

In the example image **CDP** is member of the project through the group **Test2**

The aim of this enhancement is to display this information, which is very be useful when you have a lot of users ands groups in the project

P.S. : the obsolete part is un-related, my mistake, here is a fixed fixed patch, you can remove the previous one.

#8 - 2016-03-19 01:57 - Jérôme BATAILLE

Hi, I think this patch is interesting for cases where Group members are mixed with normal members.

Can you check it again ?

#9 - 2016-03-19 01:58 - Jérôme BATAILLE

perhaps we can change the label :

User (by Group : <group name>)

The file RM_13612_members_roles_-_display_group_of_role_RM_V1.2.1.diff is a patch for vendor/plugins/redmine_smile/app/views/projects/settings/_members.rhtml.

Is it a patch for Redmine core? It looks like a patch for some plugin.

#11 - 2016-12-27 04:52 - Mischa The Evil

As far as I can tell it's a patch to the core's /projects/settings/_members.rhtml partial inside a Redmine plugin (redmine_smile), thus overloading the core's partial with the modified one. With that in mind I created a patch file against current trunk (r16111) which I hereby attach. Please note that I haven't tested any of this code, it's just a copy-paste of the patch in note 7 (which at maximum is against r4719) against current trunk. I quickly scanned the code and think that it should be working at current Redmine codebase though.

#12 - 2016-12-27 10:03 - Jérôme BATAILLE

Thanks to have generated the patch against current core.

This is a view only enhancement, with code that could be added in the controller. This patch has been on our production for a few years now and it's really useful.

#13 - 2017-01-09 08:55 - Go MAEDA

- File user-belongs-to-two-group.png added

I tried out the patch and found a small problem. Please see the following screenshot. The user "User Misc" actually belongs to 2 groups ("A Team" and "B Team"), but only "A Team" is displayed on the right side of user name.

Settings

| Information | Modules | **Members** | Versions | Issue categories | Wiki | Repositori |

⊕ New member

User / Group	
John Smith	Manager
User Misc (A Team)	Manager, Developer
🔧 B Team	Manager
Dave Lopper	Developer
🔧 A Team	Developer
