Redmine - Defect #1369

http links containing hashes don't display correct

2008-06-04 09:41 - Anonymous

Status:	Closed		**Start date:**	2008-06-04
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Wiki		**Estimated time:**	0.00 hour
Target version:	0.7.2			
Resolution:	Fixed		**Affected version:**	0.7.1

Description

They get turned in to issue number links. E.g.

http://www.redmine.org/wiki/1/FAQ#13

Actually displays as

http://www.redmine.org/wiki/1/FAQ#13

(Well, even the first doesn't display correctly, the hash13 is part of the URL but displayed as a separate link to issue 13.

Associated revisions

Revision 1492 - 2008-06-04 23:30 - Jean-Philippe Lang

Redmine links regexp fix (#1369, url hash turned into a ticket link).
