Description
I have added Custom Field under Issues. That field will by default has a list of 10 values (for e.g sub category). How to access all of them through REST API?

History

#1 - 2013-04-10 05:27 - Toshi MARUYAMA

- Category changed from Issues to REST API

#2 - 2013-04-16 10:24 - Mohammad Shafiullah

Any suggestions please?

You mean how to receive the list of 10 values which haven't been set necessarily in an issue? Now it's not possible. This might be a future feature.
