Redmine - Defect #13724

SystemStackError when saving some issues

2013-04-09 13:49 - Kristoffer Renholm

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.3.0

Description

Example 1:

```
SystemStackError (stack level too deep):
  app/models/issue.rb:159:in `create_or_update'
  app/models/issue.rb:986:in `save_issue_with_child_records'
  app/models/issue.rb:973:in `save_issue_with_child_records'
  app/controllers/issues_controller.rb:179:in `update'
```

Example 2:

```
SystemStackError (stack level too deep):
  app/models/issue.rb:159:in `create_or_update'
  app/controllers/issues_controller.rb:270:in `bulk_update'
  app/controllers/issues_controller.rb:259:in `each'
  app/controllers/issues_controller.rb:259:in `bulk_update'
```

What can be intersting to check regarding the structure of the issues, I presume this must have something to do with circular dependencies between issues some how.

History

#1 - 2013-04-09 15:26 - Kristoffer Renholm

The problem seem to be updating or creating sub tasks.

#2 - 2013-04-09 15:41 - Kristoffer Renholm

- Status changed from New to Resolved

Nevermind, as usually it's the Redmine Backlogs plugin that cause the problem.

#3 - 2013-04-09 17:20 - Etienne Massip

- Status changed from Resolved to Closed

- Resolution set to Invalid
