

Redmine - Defect #13735

Page not Found

2013-04-10 17:18 - Alain MORGAND

| | | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|--------------------------|-----------|
| Status: | Closed | Start date: | |
| Priority: | Normal | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | Projects | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | 2.3.0 |
| Resolution: | Invalid | | |
| Description I migrate to Redmine 2.3 and now for some projects I have the following message : "_The page you were trying to access doesn't exist or has been removed._" When I log out, I can see these projects. Can you help me? | | | |

History

#1 - 2013-04-10 17:47 - Filou Centrinov

Ruby and Rails version? See [Submissions](#) for details. Which Plugins you use? Could you try without any Plugins?

#2 - 2013-04-11 09:32 - Alain MORGAND

Effectively, if I remove all the plugins it works fine....

The plugins I use are : redmine_work_time, redmine_importer, redmine_timesheet_plugin.

Ruby version is Ruby192

Regards

#3 - 2013-04-11 09:43 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Invalid

Thank you for your feedback.
